DETAILED ACTION

Drawings

1. The proposed drawings (figures 12A, 12B, 12C and 12D) filed on May 5, 2005 are acceptable
2. The drawings are objected to because figures 1-3, 7, 8 and 14 are not added to other English characters set of drawings. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. Figures 1-3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

4. The subject matter of this application admits of illustration by a drawing is not in coherent with claim 1 to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81(c). No new matter may be introduced in the required drawing. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d).

Claim Objections

5. Claims 1-3 are objected to because of the following informalities:

Claim 1, 13, before "wherein" delete "and".

Claim 2, line 1, delete "(FES)".

Claim 2, the parameters "x, r and s" are not defined.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the signals" in line 5. There is insufficient antecedent basis for this limitation in the claim

Claim 1 recites the limitation "the same information" in lines 7 and 8. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "the relevant information" in line 11. There is insufficient antecedent basis for this limitation in the claim.

Claim 3 recites the limitations "the localisation", "the magnitude", "the time" and "the date" in line 2. There is insufficient antecedent basis for these limitations in the claim.

7. The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Examiner suggests correcting claim 1 as follow:

Art Unit: 2129

Lines 3 and 13, delete "these" and insert - - the - -.

Line 4, delete ", making its" and insert - - for making a - -.

Line 7, delete ", taking a decision in an independent way" and insert - - for independently taking a decision - -.

Line 8, delete ", and able to explain its" and insert - - and for explaining fuzzy expert system - -.

Line 9, delete "to the events being processed" and insert - - of the events - -.

Line 10, delete ", constituted of" and insert - - formed by - -.

Line 11, before "extracting" insert - - said neural network is - -.

Line 13, delete "configure themselves" and insert - - are - -.

Line 13, after "automatically" insert - - configured - -.

Line 14, delete "on a database of said events" and insert - - of events in a database - -.

Allowable Subject Matter

8. Claims 1-3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

9. The following is an examiner's statement of reasons for allowance: The prior art Someya et al, U.S. Pat. No. 5267348 teaches fuzzy reasoning of rules for evaluating and modifying fuzzy knowledge system. However, the claimed invention teaches a neuro-fuzzy classifier for making decision from high level properties of events and lower

Art Unit: 2129

level parameters extracted from a signal processing and a fuzzy expert network for independently taking a decision from information and for explaining the decision to a user through rules selected by order of applicability of the events. Therefore, the prior art fails to teach or suggest a neuro-fuzzy classifier for making decision from high level properties of events and lower level parameters extracted from a signal processing and a fuzzy expert network for independently taking a decision from information and for explaining the decision to a user through rules selected by order of applicability of the events.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

10. Applicant's arguments with respect to claims 1-3 have been considered but are moot in view of the new ground(s) of rejection.

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

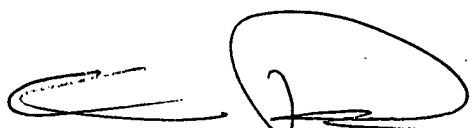

Art Unit: 2129

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
